

SAFETY is Our 1st Priority!

Training and Documentation:

Weekly Safety Meetings
CPR & First Aid
OSHA 10 & OSHA 30
MSHA Part 46 & MSHA Part 48
Lock-out / Tag-out
NFPA 70E Arc Flash
Confined Space Entry
Fall Protection
PPE

Craftsmen available

Millwrights / Mechanics
Licensed Electricians
Machinists
Pipefitters
Certified Welders
Riggers
Concrete Finishers
Sheet metal Fabricators

24 HOUR **Emergency Fabrication** **& Machining Repair**

Industries Served

Automotive
Aviation
Chemical
Food & Beverage
Medical / Hospitals
Municipalities
Packaging
Paper
Petroleum
Pharmaceutical
Tire & Rubber
Universities
Wood / Lumber

3rd Party Qualifiers

Mechanical
Electrical
Piping
Construction
Civil

Machining & Fabrication
Crane Service & Rigging

www.IndustrialMechanical.com

Industrial Mechanical, Inc. is a true single-source contractor.

We self perform and provide **turn-key** services for the following:

Mechanical and Millwright Services - plant and equipment installation and relocation including conveyors, dryers, dust collection systems, grinders, heat exchangers, hoppers, mixing tanks, storage tanks, assembly, handling, and packaging equipment; production line installations; provide precision leveling and alignment; equipment rebuilds; extruder systems cleaning; maintenance and reliability services; manpower to augment crews for maintenance, shutdowns, and outages

Electrical Services - new installations, equipment relocation and upgrades; electrical design; new services, power distribution, MCC's, PLC installation and upgrades; instrumentation; lighting; cabling; preventative maintenance; accurate documentation

Piping - certified welders for any service: water, steam, compressed air; process and drainage, chemical, food grade, natural gas, petroleum

Civil and Construction Services - concrete flatwork, foundations, containment areas, dike walls, and equipment, silo and tank foundations; tight tolerance work; sole plates fabricated and installed; paving; trenching; new construction, general and specialty construction, i.e. clean rooms; building and office repair and renovation

Structural Steel Fabrication and Erection of any steel structure; new buildings, additions, modifications; catwalks, ladders, mezzanines, platforms, stairs, and machine support structures

Equipment Rebuilds and Repair - gear boxes, pumps, fans, blowers, and hydraulic cylinders

Cranes / Heavy Rigging - specialty rigging and equipment installations, air compressors, dryers, tanks, process machinery, cooling towers, chillers, and boilers

Machining Services - offer CNC and conventional machining; make consumable/replacement parts to OEM specs; reproduce parts and machine components from worn or broken samples; provide fast turnaround; custom proprietary fabrication; machine components; large capacity milling and turning up to: 38" x 240", 66 1/2" x 108", mounted to faceplate 80" x 12"

Fabrication of miscellaneous steel - specialize in stainless steel and aluminum; work with synthetics, composites, and exotic alloys; structural fabrication i.e. catwalks, handrails, guardrails, ladders, mezzanines, platforms, sole plates, stairs, and machine support structures; sheet metal and duct work fabrication; provide custom proprietary fabrication and one of-a-kind solutions

Water jet capacity 5' x 10', up to 6" thick – ANY MATERIAL!!

Blasting and Painting wide assortment of surface preparation and painting systems; coat and paint wide variety of metals, substrates, surfaces, and machinery to enhance wear resistance, rust protection and weather sustainability; acrylics, epoxy, coal tar epoxy, latex, silicon based, urethane, zinc; submersible and nuclear rated; high heat tolerance
